ABSTRACT

Designed as an aid in college selection, this booklet provides a summary of the basic student charges for more than 1,300 public and private two-year colleges and universities in the United States. As noted in the preface, the booklet presents data obtained from a survey of the nation's colleges and universities, which sought to determine typical or modal tuition and fee charges for full-time students in 1982-83. Charge data, which are provided by state and institution, include tuition and required fees, costs of room and board, and days per week for board. For public institutions, tuition and fees required of in-state and out-of-state students are given. (HB)

Preface

This is the first booklet prepared by the National Center for Education Statistics (NCES) to provide a summary of basic student charges for more than 1,300 public and private 2-year colleges and universities in the United States. These institutions comprise 40 percent of all institutions of higher education and approximately 75 percent are publicly controlled. Last fall, they enrolled approximately 4.7 million students. A survey of these students indicated that two-thirds of them were concerned about financing their college education.

The data presented in this booklet were obtained through a survey of all of our Nation's colleges and universities and represent the responses received by NCES before March 1983. Institutions were asked to provide typical or modal tuition and fees charges that were required of full-time students for the academic year 1982-83. In-State and out-of-State charges are given where they apply, as are charges for room and board.

This booklet is one of many helpful sources of information to be used when selecting a college. There are many other reference tools. A good starting point is your school or local public library. Consulting with a guidance or career counselor can also be of assistance in your selection as well as the advice of someone who has attended an institution in which you are interested.

Various sources can provide such basic data as addresses, telephone numbers, admission requirements, types of regular and special programs offered, calendar system, and size of student body, just to name a few. Once a selection has been narrowed somewhat, you should contact the college directly to obtain a copy of their current catalog and an application. You may also wish to visit the colleges in which you have a serious interest. Much can be learned by visiting a campus that you cannot find out in any other way.

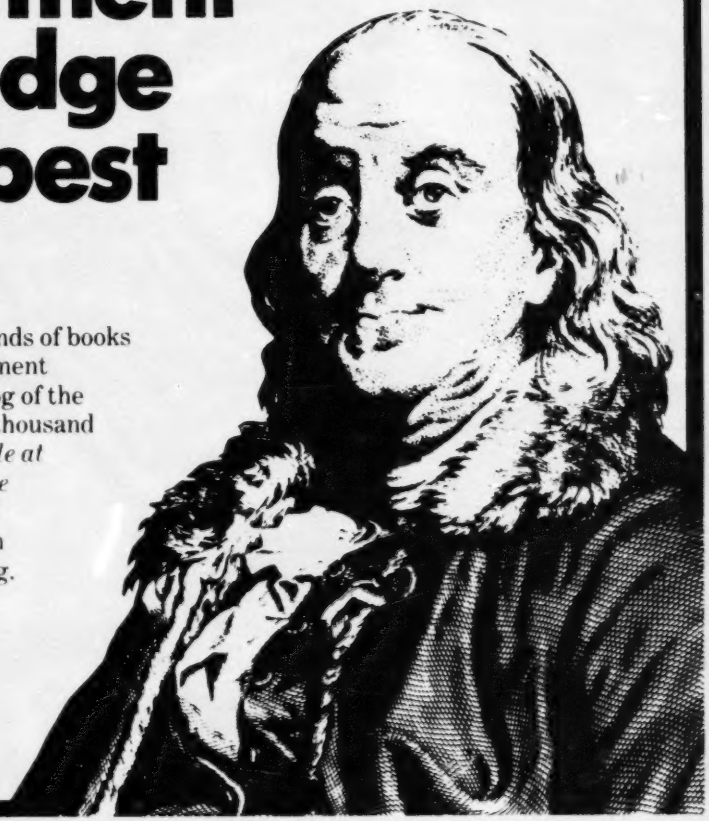
"An investment in knowledge pays the best interest."



Your Government has published thousands of books to serve America. And now the Government Printing Office has put together a catalog of the Government's "Bestsellers"—almost a thousand books in all. Books like *The Space Shuttle at Work*, *Starting a Business*, *U.S. Postage Stamps*, and *National Parks Guide and Map*. I daresay there's even information on one of my favorite subjects—printing.

Find out what the Government has published for you—send for your **free** catalog. Write—
